

(A.O.7)- Hood Realm

(Danger:4{Euclid})(Cognitohazard)

*{A drone shot of A.O.7}*

Containment procedures:

A blue tarp that is 9 x 15 meters is to cover the entrances into [Redacted] Avenue, and 9 guards are to cover and defend both entrances into (A.O.7). Working with city management, (A.O.7) is to be expunged from all city plans and signs stating "Men working, Street closed" are to be placed by the entrances. Any unauthorized persons entering (A.O.7) are to be considered legally dead, the reason should be death by gang activity/homicide. All personal that are to enter (A.O.7) are to have 50% African within their DNA, have a CMDL(Cognitive Manipulation Deterrent Level) score of 4 and above and be authorized by three Level 3 researchers. Media suppression is used to have any gang activity in [Expunged],NY out of any media. ARTF squadron 6-4 (Dawn's Early Light) should remain on site if a potential breach does occur.

Description:

(A.O.7) is a standard American street resembling African-American slum in an undisclosed area within the state of New York. This (A.O) is currently contained at Site-29 in [Redacted]. The anomalous effect of (A.O.7) comes to effect is when anyone that does not have 50% African DNA or above and has a CMDL score of 2 or below is assimilated into said community, sharing many characteristics depicting the stereotypical view of an African-American, this affects the ages of 15 and 50. The people that inhabit (A.O.7) or any assimilated are to be classified as (A.O.7-1).

(A.O.7) was discovered by the foundation after the death of Agent Mackenzie, was killed by Gangs within the area, after further investigation from a field team, we discovered the nature of (A.O.7) after we lost most of the operatives on the field team. From this, Minor Secretary {REDACTED} had ordered the containment of (A.O.7)

All (A.O.7-1) seem to engage in different views, causing some sort of a gang war. The

(A.O.7-1) will form factions and fight to the death using tactics that would be used in actual gang wars. Once the other faction surrenders or in any case becomes extinct, all (A.O.7-1) will regenerate and reanimate, then continue to fight again. Any source of weapons, munitions or resources they use have gone undetectable.

If forced to go outside of (A.O.7), (A.O.7), (A.O.7-1) will expire via rapid exsanguination as blood will spew from the mouth rapidly with immense pressure, rivaling one of a water cannon. Such observations show that the expired (A.O.7-1) will “respawn” from a house and exit out the door. From this knowledge, Dr.[Redacted] concludes that a containment breach from the inside of (A.O.7) is very unlikely

Any experimentation is prohibited following Incident (A.O.7-1)(see there). Any contact with any (A.O.7-1) must have approval from three level 4 researchers and must have 7 guards present. Government entities cannot enter (A.O.7) without written permission from O5 council.

Incident (A.O.7-1):

Two researchers, three agents, and 5 armed guards entered (A.O.7) to extract information on the anatomy of (A.O.7-1). Once contained, they attempted to extract info by any means. However, whilst contained, a group of (A.O.7-1) broke into his on-site cell, killing everyone present.

Notes:

Attempts to retake (A.O.7) had failed for the most part due to the tactics use by all (A.O.7-1) prove fatal to local and state police. From this, there has been no further attempts to retake it. No military explosives are to be used in (A.O.7) due to the civilians that inhabit the surrounding area. Also that all noise or sound coming from SCP (A.O.7) does not transfer outside (A.O.7). To reiterate, O5 Command has decided that (A.O.7) cannot be recaptured.
